Summary

Full-Stack Software Engineer with 1 year of experience building REST APIs and React-based web applications, seeking full time SDE roles.

Experience

EdgeWrapper Technology Private Limited

Oct 2025 – Present

Associate Software Developer

Newtown, Kolkata

- **Built** ETL pipelines to load data into fact and dimension tables, and authored **PostgreSQL** queries to generate analytical datasets.
- **Developed** 5+ RESTful APIs using **Node.js** and **Express.js**, documented via Swagger UI hosted on Next.js for internal tooling.
- **Engineered** a Product URL Validator using **JavaScript** and regex pattern matching across major e-commerce platforms, achieving **95% accuracy** and cutting manual verification effort by **75%**.
- **Collaborated** with the Web E-commerce team and worked on real time notifications and optimize product listing feature and improving page load speed by **25%**.

Projects

QuickCart – Next.js, React, TypeScript, MongoDB, Clerk, Inngest, Tailwind CSS

2026

- Built a full-stack e-commerce platform with secure authentication, seller dashboard, shopping cart, and order management using Next.js and MongoDB.
- Implemented event-driven user synchronization using Inngest and Clerk webhooks for asynchronous user lifecycle management.
- Developed Role-Based Access Control (RBAC) with Clerk, securing seller-only dashboards and administrative features.

WebCloud Store – Next.js 15, TypeScript, Appwrite, Tailwind CSS, Recharts

2025

- Engineered parallel server-side data fetching using **Promise.all** in Next.js 15 Server Components, eliminating network waterfalls and improving dashboard TTFB.
- Developed a **passwordless OTP authentication** system via Appwrite Email Tokens, securing sessions with **HttpOnly, SameSite:Strict** cookies.
- Designed a **transaction-safe file upload pipeline** with automated rollback – purges orphan blobs from Appwrite Storage if database metadata creation fails.

Technical Skills

Languages: Java, JavaScript, TypeScript

Frameworks & Libraries: React.js, Redux, Next.js, Node.js, Express.js, Tailwind CSS, REST APIs

Databases: MySQL, MongoDB, PostgreSQL

Tools & DevOps: Git, GitLab, Docker, AWS, Postman, Figma

Soft Skills: Problem Solving, Team Collaboration, Communication, Leadership, Adaptability

Education

University Institute of Technology, Burdwan

2021 – 2025

B.E. – Information Technology CGPA: 7.81/10

Burdwan, West Bengal

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Achievements

- Solved **300+** DSA problems on LeetCode and GeeksforGeeks.
- **Hackathon Winner** – 1st place in college internal hackathon
- Scored **99.47** percentile in Naukri Campus Young Turks 2025.
- Earned the **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** certificate.
- Earned the **Career Essentials in Software Development** certification from **Microsoft & LinkedIn**.
